

A long-exposure photograph of a city street at night. The image shows multiple lanes of traffic with light trails from cars and motorcycles. In the background, several tall skyscrapers are illuminated with blue and white lights. A large yellow rectangular box is overlaid on the upper half of the image, containing the title text.

CKA报名流程及注意事项

A white rectangular box with a thin black border, containing the text '宽哥带你学'.

Live Monitor 11:17 PM

Welcome to your exam! I will be your proctor today. In addition to monitoring your exam, I'm also available if you have any questions via the Live Chat feature.

考试注意事项

The screenshot displays the Linux Foundation exam interface. The browser address bar shows the URL: `examslocal.com/WebDelivery/Home/Candidate?reservationId=4b8c2f80-8a30-42ad-93c4-c7d53f2fcd2`. The page header includes the PSI logo and navigation links: Online, Camera, Desktop, Live Chat, Exam Controls, and Exam Information.

On the left, a sidebar shows a list of tasks from Task 1 to Task 12. Task 4 is currently selected, and its weight is 7%. Below the task list, there are buttons for "Unflag this" and "I am satisfied, next".

The main content area is titled "THE LINUX FOUNDATION" and contains a list of instructions for the exam:

- For Linux: select text for copy and middle button for paste (or both left and right simultaneously if you have no middle button).
- For Mac: `⌘C` to copy and `⌘V` to paste.
- For Windows: `Ctrl+Insert` to copy and `Shift+Insert` to paste.

Instructions 7 through 15 provide further details about the exam environment, including the use of terminal multiplexers, font size adjustment, and the availability of additional tabs for reference.

At the bottom right, there is a "Activate Windows" watermark with the text "Go to Settings to activate Windows."

Thanks.
